

EASYPASS ACCESS SERVICES

KEY BENEFITS

PROVIDE FAST, EASY WI-FI ACCESS

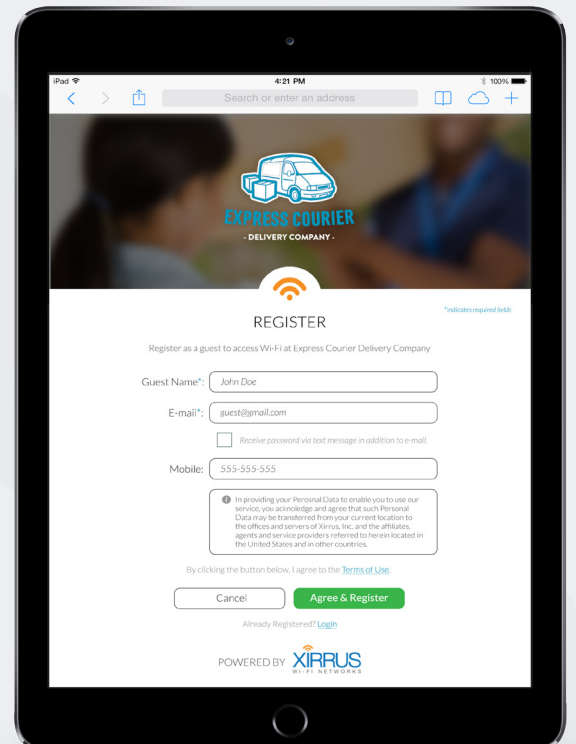

With just a few clicks and no IT involvement, guests can self-register and employees can self-onboard to your company's Wi-Fi network from any personal device with little to no technical knowledge required.

SIMPLIFY BYOD SECURITY

Xirrus EasyPass significantly streamlines IT operations and reduces help desk calls by letting users securely connect to the corporate network without need for deploying certificates or installing applications on personal devices.

PROTECT ACCESS FROM ANY DEVICE

EasyPass supports encryption and 2-level authentication on every type of device and operating system including mobile phones, tablets, and laptops operating with iOS, Android, Windows and Apple OS X.

AT A GLANCE

- Cloud service streamlines IT operations
- 5x fewer steps to onboard devices
- No agents/certificates/applications required
- Supports non-IT guest ambassador workflow
- Easily creates bulk guest accounts
- Export guest credentials for POS integration

EASYPASS ACCESS SERVICES

HIGHLIGHTS

TRACK GUEST ACTIVITIES

EasyPass Guest allows guests to self-register or use their social media credentials to connect. IT administrators gain full visibility into guest activities and the control to enforce access policies from anywhere through the cloud.

EMPOWER EMPLOYEES TO ONBOARD

Because there are no applications to download or certificates to install, **EasyPass Onboarding** makes it simple for employees to securely connect their personal devices to a corporate network without needing IT assistance.

MANAGE GUEST ACCOUNTS IN BULK

EasyPass Voucher simplifies guest Wi-Fi access for events, conventions and retail hotspots. Activate multiple guest accounts using access codes that can be created in bulk, exported, and integrated into point of sale (POS) and ticketing systems.

Product Series	Description
